First Cadets Measured For Uniforms

On Monday after school thirty-two enthusiastic boys showed up for Air Cadet Parade at the old High School to be measured for uniforms. Due to the icy condition of the roads Sgt. W. Ingraham of Edmonton and Cpl. H. Jackson of Claresroim did not arrive on schedule so C. O. Bob Zobell briefed the boys on Air Cadet work.

While the R. C. A. F. men were in town it was decided to use Tuesday morning to measure more Cadets and another fifty-two boys were measured at that time. There are still a goodly number of boys who have stated their intention to join who have not done so Application forms are still obtainable from Delbert Thompson.

Another parade will be held on Monday, December 1st, at seven p.m. at which time C. O. Zobell will instruct the boys in formation of squad etc. A nominal roll-call will be made and all Cadets and those interested in joining are asked to be present promptly at seven o'clock. The uniforms should be ready for distribution by the following week.

A movie projector will be made available to the Cadets immediately for education and entertainment and discussions are underway regarding an Air Cadet Band in Raymond. The projector, uniforms, instruments, etc. are all loaned to the boys by the R.C.A.F. but all expenses incurred by the group from activities such as Summer camp, movies and other projects are paid for by civilians with the biggest portion of these funds quietly donated by big manufactures, oil barons, chain stores etc. whose only aim is to help make good citizens.

Let's all get behind this worthwhile undertaking by the young men of our Town and District.

GOVERNMENT BUSINESS

IS

MUNICIPAL ASSISTANCE

TAXPAYER: Do I share in the revenues of the Alberta Government?

DEPT. OF MUNICIPAL AFFAIRS: Yes, you do! Approximately 40% of the total expenditure on income account will be distributed in the form of municipal assistance this year.

FACTS YOU SHOULD KNOW:

1. All Albertans will benefit from the $29,000,000 in direct and indirect grants to municipalities this year.
2. The province pays the entire or a major portion of social services such as Old Age and Blind Pensions, Mothers' Allowance, Indigent Relief and Child Welfare.
3. The province makes direct grants for roads and bridges, schools and hospitals.
4. The province will compensate any municipality which reduces the mill rate up to a maximum of three mills. This amounts to a refund of taxes direct to the taxpayer and will cost the province nearly $2,800,000 in 1952.
5. Through the Self-Liquidating Projects Act, municipalities have been able to borrow money at a low rate of interest to finance such installations as waterworks and sewerage projects.

THE CASE FOR THIEVES

The other day we read an interview with a thief in which he said his occupation was necessary to modern life.

If there were on thieves, this man said, there would be no need for huge iron safes, so the makers of these would go out of business and their men unemployed.

There would be little need for police so thousands of such men would lose their jobs.

There would not be nearly the extensive need for banks, which now exists, and look at the unemployment which would ensue if the activities of such financial institutions were curbed by one half!

There would be no need for the companies which insure against thefts or defalcation.

There would be a closing of most jails, lawyers and judges would lose most of their employment, and general chaos would ensue.

Thinking it over, it would appear that there is good case for thieves. Who would want to upset modern civilization.

Let's have a "Thieves Week" by all means.

On Thursday Mr. and Mrs. T. W. Meldrum, Mrs. Siminson and Mrs. Colzin motored to Taber where they were guests at the Milton Conrad home.

While in Taber they also visited Mr. and Mrs. Frank Kenney.

Mrs. Verna Philips accompanied her daughter, Mrs. Winona Pommen, to Edmonton where Mrs. Pommen was a hospital patient.

Friends of Ezra Christensen will be sorry to learn that he has been in poor health this week and has been confined to his bed for a few days.

ALBERTA WHEAT POOL

- Information -

The Alberta Wheat Pool's assets include 485 country elevators with 410 annexes in this province and also in the Creston and Dawson Creek localities in British Columbia, the total capacity being 33,844,850 bushels. The Pool also owns a 5,150,000 bushel terminal at Vancouver and a 2,000,000 bushel terminal at Port Arthur. The grand total capacity of the entire system is 40,994,850 bushels.

Since its inception Alberta Wheat Pool has made the following payments:

Patronage dividends in cash	$ 5,099,683
Interest on reserves paid prior to 1929	631,253
Repayment of debt to government	8,855,629
Redemption of reserves	6,980,189
Total ..... in reserves	5,983,644
Patronage dividends paid	$21,566,754

The ownership of the Alberta Wheat Pool and Pool Elevators rests with farmer reserve holders. The farmer can become a member of the Alberta Wheat Pool by delivering 500 bushels of grain to a Pool elevator and purchasing reserves to the value of $5.00.

The Pool policy provides for the payment of patronage dividends, partly in cash and partly in reserves, in years when earnings are sufficent to justify such action. Members can increase their reserve holdings by patronizing Alberta Pool Elevators.

This substantial Pool elevator system is a valuable property. It is operated for the benefit of the membership.

The Wheat Pool's objective is to keep handling charges as low as possible and return excessive earning in the form of patronage dividends: also to redeem reserves from members who have ceased to farm.
